Part 1 – System Information

Step 1:

- The username displayed is: kali
- The hostname displayed is: kali
- I am in home directory as user kali.

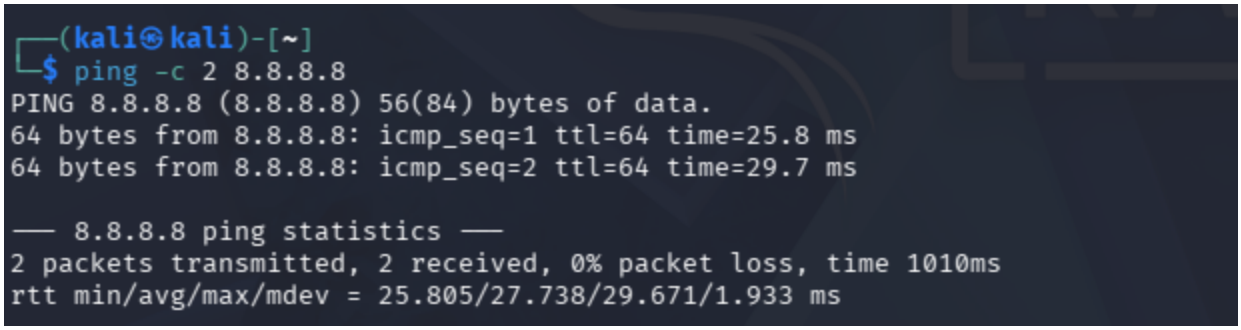

Step 2:

- The box total Ram is 1Gi
- The disk space available on the main portion is 230Mi
- The version is: Linux kali 16.9.14

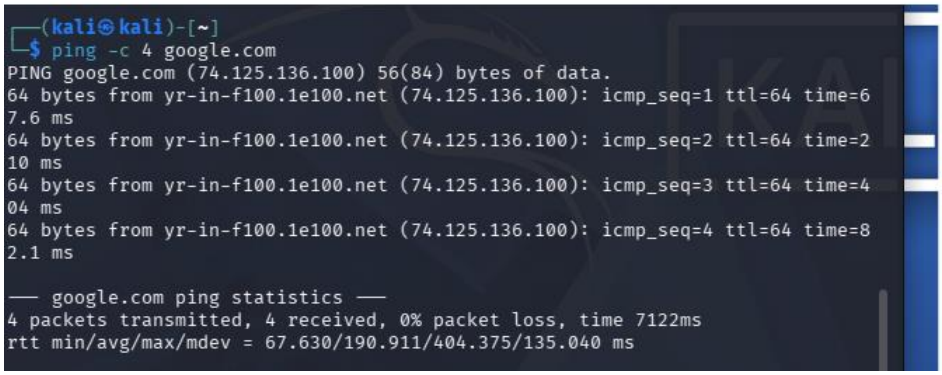

Part 2 – Basic Network Connectivity Test

Step 1:

- The round-trip time is 1010ms
- 0% packet loss – no packet loss identified.

Step 2:

- Google.com resolved to 74.125.136.100
- The round-trip time is longer when you ping google.com directly. The reason is because the –c 4 is tailored to tell the command to send 4 echo request packets and they stop immediately.
- C stands for “number of packet counts”
- 4 stand for “the exact number of ICMP packets to transmit across.
